

VICTORIA UNIVERSITY OF  
**WELLINGTON**  
TE HERENGA WAKA

# MASTER OF HEALTH

MASTER OF HEALTH | POSTGRADUATE DIPLOMA IN HEALTH | POSTGRADUATE  
CERTIFICATE IN HEALTH

Gain skills and knowledge to meet the demand for qualified professionals in the health sector. The programmes are taught in block courses to fit around your work commitments. Start at postgraduate certificate, diploma or Master's level, depending on your study needs. Choose from one of seven specialisations or choose your own pathway with no specialisation.

## HEALTH LEADERSHIP AND MANAGEMENT

Lead and undertake management roles in the health sector.

## HEALTH POLICY, PLANNING AND SERVICE DELIVERY

Navigate and influence the healthcare environment by studying national and district service delivery and implementation.

## HEALTH PROMOTION

Improve and shape the application and theory of health promotion strategies at group, community, and population levels.

## MIDWIFERY

Lead clinical midwifery environments through innovation, policy, and education.

## NURSING

Advance nursing practice in education, leadership, policy, and practice.

## PROFESSIONAL PRACTICE

Innovate and influence across the health sector in your area of health speciality.

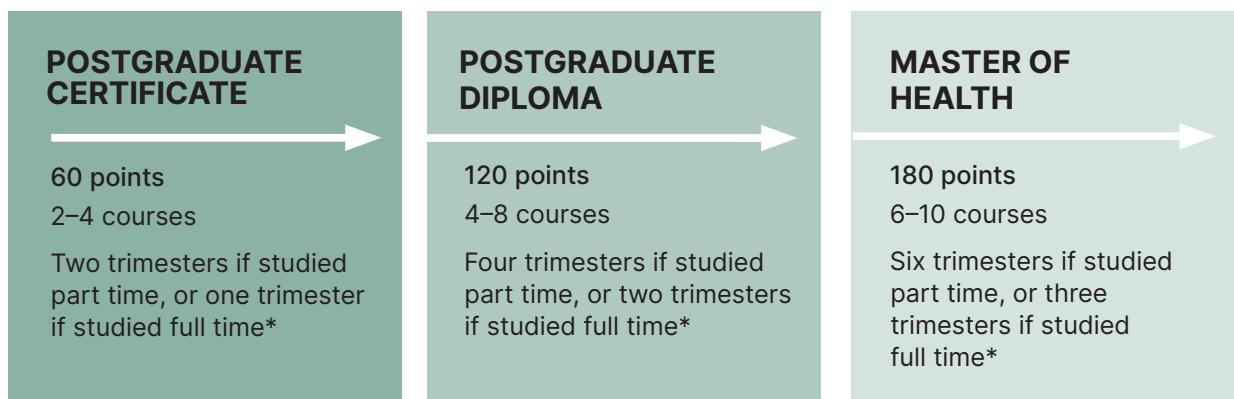

## WORKPLACE HEALTH AND SAFETY

Shape your career in the growing area of workplace health and safety.

**CAPITAL THINKING.  
GLOBALLY MINDED.**  
MAI I TE IHO KI TE PAE

The Master of Health is part of a tiered family of qualifications. These are staircased so that courses completed for each qualification can count towards the next step.

Choose the qualification with the entry requirements, time commitment, and career benefits that suit you.

Entry to these programmes requires a relevant Bachelor's degree (with at least a B average for the Master of Health). For Midwifery, Nursing, and Professional Practice pathways, you must be a registered health professional.

\*The duration of study for individual students may vary. The University year has three trimesters, which start in March, July, and November.
