EXPLORING ANTIPODEAN CONTRASTS

Lake Rotoiti. Nelson Lakes N.P.

- 
- ✓ Long tracks
 - ✓ Hotels, lodges and huts inside N.P.
 - ✓ Scenic flights (Helicopters and planes)
 - ✓ Ski, jet boating, hunting
 - ✓ Toilets and signs for safety
 - ✓ Concessions
 - ✓ Dogs
 - ✓ Contamination's Culture

NATURE CONSERVATION, NATIONAL PARKS AND TOURISM

Doñana N.P.

- 
- A photograph of a waterfall in a dense forest. The water is white and foamy as it falls down a dark, mossy rock face. The surrounding trees are thick and green, with sunlight filtering through the canopy. The waterfall is the central focus of the image.
- ✓ National parks as conservation areas
 - ✓ National parks as tourist destinations
 - ✓ National parks as destinations of sustainable nature-base tourism
 - ✓ National parks as resources for local people

 - ✓ What orientation is held in Spain National Parks

?

The background image shows a coastal landscape. In the foreground, there's a sandy beach with gentle waves lapping at the shore. The middle ground features a prominent, layered rock formation on the right side of the beach. Behind the beach, a steep, forested cliffside rises, with some rocky outcrops visible. The sky is filled with soft, grey clouds, suggesting an overcast day. The overall scene is a natural, rugged coastline.

The National Parks Act 1980, while stressing that parks were to be preserved in perpetuity, also recognised that:

“...the public shall have freedom of entry and access to the parks, so that they may receive in full measure, the inspiration, enjoyment and other benefits that may be derived from mountains, forests, sounds, sea coasts, lakes, rivers and other natural features.”

A scenic sunset over a lake. The sun is low on the horizon, casting a golden glow across the sky and reflecting on the water. The sky is filled with soft, wispy clouds. In the foreground, there are silhouettes of reeds and grasses. In the background, there are dark mountains. The overall mood is peaceful and serene.

**MANY THANKS
FOR YOUR ATTENTION**
